Identity

Our Identity Recovery product covers both **you and your family** members. We keep your financial, medical and other personal information protected.

Identity Theft Helpline

A **LIVE** representative to call for information and help when you suspect you've become a victim of ID theft.

Expense Reimbursements

You'll be protected for expenses up to **\$25,000 per member** that arise from an identity theft event. Recoverable expenses can include legal fees; lost wages as a result of time away from work; costs for child or elder care; the cost of obtaining credit bureau reports; fees when reapplying for loans initially declined due to falsified information; postage, phone and shipping fees.

No deductible is ever applied.

Unlimited Case Management and Restoration Services

It takes **55 hours or more** to resolve an identity theft, so Case Management is critical to help members and their family reduce worry and distraction when an identity theft strikes.

Case Management will work with the three national credit bureaus, creditors, financial institutions, and others to identify errors and correct their records; communicate to various government entities on your behalf; check for a recurrence of identity theft problems; and keep **detailed records** of the steps taken and those remaining in the process.

The Identity Recovery product provides **unlimited restoration services** including case management for a period of one year with no deductible, along with the option of using a limited power of attorney to help in the recovery process.
